

TIMBERBITS

HELPING YOU CREATE WITH WOOD

Lighthouse Pen Kit

Drill Bit: 9.5 mm

Bushings: Lighthouse (A0206)

Tube: 72mm (A0301)

Refill: Lighthouse A0303

Turning

Mount on A0206 bushings. Turn to bushing diameter, sand, and finish.

Assembly

1. **Cap end:** Slide **clip** onto **cap coupler** and **press** coupler into one end of the barrel.
2. Insert **battery stack** (+ toward lamp) and **thread on lighthouse cap**.
3. **Nib end:** **Press** front coupler into the other end. (Can be done by hand)
4. Thread **A0303 refill** into **nib**; thread nib onto front coupler.
5. Insert **twist mechanism** into front coupler.

Operation

- **Writing:** twist nib to extend/retract the refill.
- **Light:** the cap lamp **engages by twisting the nib point with the ships on it**, twist back to turn it **off**. Twist clockwise to turn on and twist back to turn off.
