PEN MAKING KITS

We have Australia's largest range of pen kits, pen blanks and pen making accessories. We purchase from several manufactures in Taiwan, Main Land China and Hong Kong.

We buy direct from these factories to our specification. All the pen kits that we sell are randomly tested and assembled by David to ensure that the batch meets our high-quality specification before we put them on sale.

Acrylic Pen Blanks

These blanks are made from special polymers which are extremely easy to turn and drill yet are hard enough to take an extremely durable finish.

Specifically formulated for turning on the lathe, these acrylic acetate pen blanks cut cleanly and polish up to a dazzling finish. One of the beautiful features of these acrylic pen blanks is that they have a vibrant mixture of colors that swirl and intertwine throughout each blank. This makes each pen blank unique and attractive. Acrylics turn similar to wooden pen blanks. The key is to use a sharp cutting tool and to polish the blank with a very high grit sandpaper or plastic polish. Acrylic pens achieve their high-gloss finish through polishing and do not require a finish on the surface like wooden pens.

Size of the blank is 20mm x 20mm x 130mm (slightly larger than 3/4" x 3/4" x 5"). Please note the size supplied has a manufacture specification of +/- 2mm

Timber Pen Blanks

Our pen blanks have all be either air dried for over a year or kiln dried as a board before being trimmed into pen blanks. Most of our pen blanks are cut from milling off cuts. We try our very hardest not to cut up big boards of furniture grade boards for pen blanks. Our pen blanks are dry and not encased in wax. Other pen blank sellers encase their blanks in wax to prevent them from cracking or to hid the fact that the blanks are still green. Buy your pen blanks from another pen turner, that way you know that your paying for quality blanks that is specially designed for pen turning - not a timber cutter's extra source of income.

PEN MAKING

Pen Kit Bushings

Use these pen bushings to help you turn your pen barrels. All our bushings are designed to go on the standard 1/4" mandrel rod. Don't get tricked by other supplies who make you purchase all different types of mandrel to turn pens - it's just a con to make you spend more money.
